

AVAR — GOVERNANCE

Zero Waste.

Resource management built into operations, maintenance, procurement and the full asset lifecycle.

90%

minimum waste diversion from landfill

IN PARTNERSHIP WITH
The Waste Lab

Our Commitment

AVAR supports clients in progressing toward **Zero Waste certification** and **circular economy objectives** by integrating resource management into operations, maintenance, procurement and asset lifecycle practices.

Our Approach

- | | |
|--|--|
| 01 Waste segregation | 02 Measurement and reporting |
| 03 Recycling and recovery | 04 E-waste management |
| 05 Asset reuse and redeployment | 06 Supplier take-back programs |
| 07 Packaging reduction | 08 Responsible end-of-life management |

Our Target

AVAR supports clients in achieving **at least 90% waste diversion from landfill**, backed by effective waste management controls, evidence, monitoring and continual improvement programs aligned with Zero Waste certification objectives.
